It is important to the recurring needs of Government agencies that records loaned by the National Archives and Records Service be returned promptly following completion of the transaction in connection with which they were borrowed. The National Archives and Records Service can provide adequate loan service only if all agencies adhere to this principle.

Below is a list of records loaned to the agency indicated above, prior to the date shown.

Please return the carbon copy of this list together with the records you no longer need, noting in the last column of the list the word "herewith." For the remainder of the items, please insert in the same column the anticipated date of return. Please do not use such terms as "in use," "active," or "indefinite."
